PRE-APPEAL BRIEF REQUEST FOR REVIEW

U.S. Patent and Trademark Office  
Customer Service Window - **Mail Stop AF**  
Randolph Building  
401 Dulany Street  
Alexandria, Virginia 22314

Sir:

Applicants request review of the final rejection in the above-identified application. No amendments are being filed with this Request. This Request is being filed with a Notice of Appeal. The review is requested for the reasons stated below in the Remarks.

**REMARKS**

This review is being requested because Applicants believe that the rejections of record from the Examiner are clearly not proper and are without basis. For example, the Examiner commits a clear error in asserting that Petersen et al. discloses a database server configured to store information about credit information for each of a plurality of dealing companies, and order restriction information of a plurality of products (see, Applicants' arguments in the Amendment filed July 19, 2006, page 8).

Moreover, the Examiner commits a clear error in asserting that Petersen et al. discloses an information acquisition server coupled to a database server and configured to acquire information about each of the plurality of dealing companies and to register the acquired information on the database server, by figure 11 of Peterson et al. that merely discloses a flowchart detailing a download function and no structure or apparatus (see, Applicants' arguments in the Amendment filed July 19, 2006, page 9).

Further, the Examiner commits a clear error in asserting that Leonard. discloses a database server configured to store information relating to product order errors, an order control server configured to gather information about respective product order error items noted in the database server, or execute a selective order control in accordance with determining whether an error of corresponding product order is correct, when these structures or associated functions are not found in Leonard (see, Applicants' arguments in the Amendment filed July 19, 2006, pages 10-11).

**CONCLUSION**

Accordingly, Applicants respectfully request that the rejections be withdrawn and that claims 1-5 and 10-12 be allowed.

Please charge any shortage in fees due in connection with the filing of this, concurrent and future replies, including extension of time fees, to Deposit Account 16-0607 and please credit any excess fees to such deposit account.

Respectfully submitted,  
FLESHNER & KIM, LLP
